A TOTAL WETROOM SOLUTION

Our wetroom trays, wall boards, floor boards, seating & furniture are all made from high grade extruded polystyrene (XPS) which has been coated with a special polymer modified cement into which is bonded a fibre glass mesh. The result is a strong, totally waterproof, thermally insulating, incredibly lightweight & easy to cut material that is transforming wetroom design.

CREATING YOUR PERFECT WETROOM IS AS EASY AS 1-2-3

1. Choose to install using a Wetroom Tray or Sloping Boards decide which drain option you want and add a sealing kit.
2. Take a look at the extra items available for your wetroom. Pick from: waterproof thermal boards for walls and floors, bath panels, seating kits, wall niches & a floating shelf.
3. Add additional fixings if you're creating a larger wetroom or are installing boards on the walls and floors.

INTRODUCING... **super-strong** ACRYLIC

- Smooth high gloss acrylic is solid in colour so it won't rub off or fade.
- A special mix of polyester resin seals in the baseboard, increasing rigidity and acting as a thermal layer so the water stays warmer longer.
- Fully encapsulated high strength baseboard.

super-strong ACRYLIC has many benefits over standard acrylic. Made using the latest materials and techniques it produces a bath that is as strong as cast iron but is warmer to the touch and retains heat longer than a standard bath. Most of our acrylic baths are available with **super-strong** ACRYLIC. The extra strength of our **super-strong** ACRYLIC makes it ideal for use in a shower bath where the weight is concentrated at one end, this puts extra strain on the structure of the bath but with **super-strong** ACRYLIC the bath remains strong and rigid.
